Prophecy

Dear Mr. Blair,

It seems only yesterday the Class of '59 was striving to achieve an education there at T. H. S. Now 15 years later, they are scattered throughout the world fulfilling their goal in life.

Recalling how Brady Anderson loved to play the guitar, he fulfilled his ambition by playing for the very popular Rock 'n' Roll singer, Brad Boardman.

Elsa Trusty has taken up the racing profession and is planning to drive her Buick in the Indianapolis 500 this year.

Ron McClafin retired from acting and became owner-producer of M & M Studios. His latest Academy Award winners were "Me, and the Vampire" and "BB Comes Home".

The Agnew Ranch has hired George Keithahn as bronc buster.

Ron McWilliams has dedicated his life to unmarried women. He seems to be happy with his task.

On a once-lonely island in the South Pacific, dwell the two personalities of Glenna John and Larry Kelly. They wanted to get away from paying taxes, so they say.

Richard Anderson has grown a mustache and beard to qualify as a Prof. in Dick Bartley's charm school for girls.

In Life Magazine appeared the life story of Don Arnott. He was chosen "Man of the Decade" for his outstanding missionary work in Antarctica with the penguins.

About four years ago Dick Thomsen and Gary Esget went on a hunting expedition in the Amazon River country of South America. The last message received from them stated they were invited to dinner by some nice cannibals.

Georgia Ream is a professional tree planter for Wyerhaeuser Timber Company.

The last election in the thriving metropolis of Bucoda showed Bob Largen Mayor of the city. He is also proprietor of Joe's Place where he makes a goodly sum on Saturday nights.

Perhaps you have seen some of the very famous paintings of David Whited. He became a painter in the Navy after graduation. Some of his most widely known are Mona Lisa's Fianceses, and Elvis Presley's Mustache.

Carl Harris made his home near the Rainier Brewing Company which he owns. To cut down expenses, he does his own sampling.

Shortly after graduation, Marcia Clark joined the Women's Air Force and is now Commander-in-chief of that branch.

Dale Furlong has made Sherry Wells his bride and they are both employed at the University of Tenino. Dale is dean of the institution, with Sherry the head football coach.

While in Texas last year, I met Ann Sappenfield, the famous oil queen. She says she is still determined to rope and brand a certain roving gambler named Bob Hurley.

The Washington Hog Growers Association has a new president now. Kitty Kelly became the first woman to hold such an office and has developed several new breeds of hogs since.

Monsieur Charles Brumfield bid au revoir to the U.S. two years ago and traveled to gay Paree to become a world famous dress designer.

Liz Vasbinder is prospecting for uranium in Skookumchuck Valley, while Bill Hollandsworth is a very successful producer of coconuts from the same region.

Alice Pearce obtained her doctorate degree in chemical engineering at Oxford about a year ago and is now attempting to create a synthetic man.

Happily married to an alumni of T. H. S., is Gail Canady who retired from the Opera to prove "They're Cheaper By The Dozen".

At last report, JoAnn Fenton has definitely stepped up in society from Tenino Labor Day Queen, to jungle queen of the Belgian Congo in darkest Africa.

After five years of constant marriage proposals from his secretary Janet Shultz, Ron Wiggins (who owns Playtex Company) finally consented to partake in the ceremony with her.

As for myself, I have found my home for a few years and it costs me nothing for board and room because I work it out on the chain gang. In case you'd like to write me, just send your letter in care of the Warden at San Quentin Reformatory, California.

Sincerely,

Joseph H. Foster, M.D.

Story of Three Generations

We pruned trees and gathered up scrap iron to sell in order to earn enough money to buy our first Duroc sows in the spring of 1957. Twenty litters have been farrowed since that time which puts the number of Duroc progeny from the two original sows, well over the two hundred mark.

Thirty different F. F. A. members have had Duroc projects at their homes. Only two boys have failed to show a profit. Pictured below is Dick Bartley with one of the original sows at last year's Southwest Washington Fair. On the next page Carl Harris is pictured, winning the swine showmanship contest, with one of the daughters of the original sows. The final picture shows Errol Huber, Dick Bartley, Earl Andruss and Elden Morrill displaying ribbons won with her grandchildren.
